Installation Steps of ksia R Package

ksia R package depends on *minet* and *c3net R* packages. For the installation of *ksia* users need to follow some simple installation steps that are given below.

1.   To download and install dependent packages *minet* and *c3net* from the related repositories:

Table Installation codes of *minet* and *c3net*, R packages

Package Name	Installation Code(s)
minet	• install. packages("minet")
c3net	• install. packages("c3net")

2.   Execute the installation command for *ksia* in R. The command below installs the *ksia* package to the R library.

- install.packages("https://github.com/ozgurcingiz/ksia/blob/main/ksia_0.1.0.tar.gz", type="source", repos=NULL*)*

3.   To load *ksia* package:

- library("ksia")

4.   For the instruction set of *ksia* R package, please check the user manual " https://github.com/ozgurcingiz/ksia/blob/main/ksia_0.1.0.pdf″ .
